Shots for Higher Education Students:

Although the government said any university or its affiliated colleges could resume in-person classes if all their students completed the Covid-19 vaccine registration by yesterday, more than half the tertiary-level pupils across the country failed to do so within the deadline.

Most students do not have their national identification (NID) card, which is mandatory for vaccine registration through the government's Surokkha app. The University Grants Commission (UGC) opened a weblink for such students to enable them to use their birth certificates to register.

REGISTRATION

One-hundred and seven private universities, 50 public universities and their affiliated colleges have 44.34 lakh students in total, according to the latest UGC annual report. It will reopen dormitories for such students on October 5

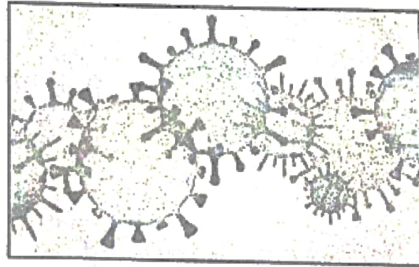

PUBLIC UNIVS PREPARE FOR REOPENING

Dhaka University on Sunday reopened the central and other libraries for masters and honours fourth year students, who had received at least one dose of the vaccine.

On Friday, Bangladesh Agricultural University reopened its halls for students of masters and honours final year. They will also have to take at least one dose.

The Covid-19

"Twenty-five people have died from Covid-19 in 24 hours (till 8am today), according to a press release issued by the Directorate General of Health Services (DGHS).

With them, the total number of deaths reached 27,439 and the death rate stands at 1.77 percent.

কারণ:

করোনাভাইরাসে আক্রান্ত হওয়ার পর শরীরের রোগ প্রতিরোধ ক্ষমতা ওই ভাইরাসের বিরুদ্ধে লড়াই করতে থাকে। এই প্রতিরোধ ক্ষমতা এক পর্যায়ে অনিয়ন্ত্রিতভাবে সক্রিয় হয়ে শরীরের অন্যান্য অঙ্গ প্রত্যঙ্গে প্রদাহের সৃষ্টি করে। যার ফলে নানা শারীরিক জটিলতা দেখা দেয়।

ভাইরাস যতোটা না ক্ষতি করছে তার চাইতে বড় ধরনের ক্ষতি হতে পারে যদি শরীরের রোগ প্রতিরোধ ক্ষমতা অনিয়ন্ত্রিতভাবে কাজ করে।

যা ফুসফুসসহ শরীরের নানা অঙ্গ প্রত্যঙ্গে আঘাত গানো একে মাল্টি সিস্টেম ডিসঅর্ডার হিসেবে উল্লেখ করেন মিস নূর।

সাধারণত দুর্বলতা ও অল্পতেই হাঁপিয়ে ওঠার মতো সমস্যাগুলো থেকে যায়। শরীর ম্যাজ ম্যাজ করা, অস্থিসন্ধি ও মাংসপেশিতে ব্যথা, অবসাদ এবং রক্তচাপ বাড়ার হয়।

রোগীর স্বাস্থ্য পরিস্থিতি, লিঙ্গ ও বয়স ভেদে একেকজনের লক্ষণ একেক মাত্রার হতে পারে।
